

Leadership Camp

“Leadership is not about changing the mindset of a group, but in the cultivation of an environment that brings out the best and inspires the individuals in that group.”

Student leadership is the most important activity in a learner’s life as it paves the path for a child to find his voice and provides a unique position to make a difference in the society. When students are given the skills and opportunity to lead within their schools, they are

empowered to have a real impact on their learning and school environment and are prepared to participate meaningfully in their community.

To inculcate the qualities of leadership and determination, a Leadership Camp was organized by Rocksport on November 15, 2016 in the school premises for classes IV-XII. The students were given an opportunity to indulge themselves in various fun filled activities and leadership enhancing games like Rock Climbing, Zip lining, Burma Bridge etc.

The skill acquired during these activities motivates the students to face any competition. It instills confidence and encourages students towards new horizons of learning which no classroom lecture can alone provide for. Like a power packed energy pill, the camp within a short span of a day meets all the requirements of an adventure.
