

WEB CONFERENCE BETWEEN  
K.R.MANGALAM WORLD SCHOOL, VIKASPURI  
AND  
TRINITY LUTHERAN COLLEGE, AUSTRALIA

*The students of K.R.Mangalam World School, VikasPuri had an icebreaking session with the students of Trinity Lutheran College, Queensland, Australia on 11 May, 2016.*

*Cutting across boundaries, the web conference was an attempt to bring the students face to face with each other. The exchange was highly interactive and productive- the students were highly charged. The web conference brought alive the culture, heritage and geographical features of both the countries. The students freely discussed their Life at school. The Indian students introduced their Australian counterparts to 'Namaste' - the Indian way of greeting. True to its name- the icebreaking session was a resounding success. The Australian students were inquisitive about the different Indian states and seemed to have done their research before the session itself. The students happily interacted and discussed about the different Indian and Australian monuments and cuisines etc.*
