

BENEFITS OF ONLINE CLASSES

JX-B

- By Aashna das

REDUCED COSTS

- *Online education can cost less due to a variety of reasons-:*
- *Costs that are related to transport, such as fuel, parking, car maintenance, and public transportation and extracurricular activities don't affect the online student.*

DOCUMENTATION

- *During online classes all the information that the student will need will be safely stored in an online database. This includes things like live discussion documents, training materials and emails which can be easily accessed when there is a need of clarification.*

MORE STUDENT TIME

- *Students in traditional classes may not get the personalized attention to need to have concepts clarified. This is not a problem for the online classes because of personal talk time with their professors . This increases the chances of a student performing well due to the time their instructors give them. This also enhances their problem-solving and communication skills*

THANK YOU !

- *Though online classes have a number of benefits, it is not perfect and like every other thing it has a fair share of pros and cons*
