Dear Parent

Math Sutras are apparently the secret through which ancient Indians performed their feats over 5000 years ago. This system was apparently hidden away down the ages and was rediscovered by a scholar in the forests, in South India fifty years ago. Therefore, we can say that it's a recent 20th century phenomenon.

There are just 16 Sutras or word Formula which can be used to solve all known mathematical problems in the branches of Arithmetic, Algebra, Geometry, and Calculus. They are easy to understand, easy to apply and easy to remember. The system is wonderfully interrelated and unified. Working with these formulae is healthy for the mind as they guide a way the mind naturally works and are therefore proved to be helpful in directing the student to the appropriate method of solution.

A few benefits of learning Vedic Mathematics are as follows:

- 1500% faster than normal math
- Increases speed and accuracy
- Improved academic performance and instant results
- Sharpens your mind, increases mental agility and intelligence
- Increases visualization and concentration in children
- Become a mental calculator

K. R. Mangalam World School, G.K-II has always emphasized on its priority to guide the students and is leaving no stone unturned to help them with the varied resources to enhance their learning. Since it is the board exam time of the students, we believe that the Vedic Mathematics tricks will make their calculations faster and fetch them good marks.

The Resource person, Ms. Ananta Aggarwal, has worked for a year under the assistance of Dr. RS Aggarwal. Presently, she is working in company (CPLSYS PRIVATE LIMITED) and she gives VEDIC MATHEMATICS Workshops or webinars to the students of classes 8th to 12th. Students would receive a certificate of participation which will help them in their future ahead.

**The details of the workshop is given below**

**Duration: 3 hours**

**Date: December 26, 2020 (Saturday)**

**Time: 10 AM to 1 PM**
