

K.R. MANGALAM WORLD SCHOOL, G.K-II PARENTS' CIRCULAR

Date: Monday, March 22, 2021

Circular No.: KRMGK-II/2020-21/286

A combination of building collaboration, the ability to recognize opportunities and the willingness to have an extra edge is the mantra to achieve success.

Dear Parent

We unfold the year 2021 with the thought that destinations are just the end points and journeys are learnings, paths of possibilities, blossoming and fresh beginnings. In the recent times, we have faced innumerable challenges and experienced our share of adversities too. The pandemic has no doubt hit us hard but it has also unlocked our true strengths. The secret of change is to focus all our energy, not on fighting the old, but on building the new. Every year has given us the momentum to learn more and achieve more. The world today is a far more awakened where our future beholders are ushering the new changes and paving a new path for themselves. The interminable spirit of KRM prevails to provide quality education to all; to build a motivated community of responsible citizens engrossed in propagating a harmonious, just and equitable social order and equipped intrepid endurance to face real-time challenges of the global world as stated in the New Education Policy.

The new session (2021-22) comes with a treasure box of opportunities, learnings and new experiences. Following the changes as per the National Educational Policy 2021, revamping the curriculum and pedagogy, our approach towards learning remains child-centric and holistic development of the students. The emphasis is towards less content and more towards real life understanding and learning-how to learn, how to think critically and solve problems, how to be creative, innovative, how to adapt, and absorb. Heading towards a **competency-based approach** in learning, we have incorporated **Project Based Learning, Experiential Learning, Art Integration and 21st century skills** in our curriculum.

A plethora of new subjects like Banking, Insurance, Entrepreneurship, ECCE, Legal Studies and Fashion Studies have been introduced in the Senior Secondary level which would help the students explore their areas of interest, make the right choice and further see

their dreams changing to reality. Also, **Skill-based** subjects like **Banking, Financial Literacy and Artificial Intelligence have been introduced in the Middle School level** to make students proficient with new skills and prepare them for future challenges. By introducing **Robotics, Astronomy and Space Education**, the school envisions to help students develop a scientific temperament and be the trend setters in future. Various **Internship programmes will be organized for the students of Classes XI and XII** which would help them to build a strong profile for pursuing education abroad. The school envisages in building a vibrant and dynamic form of heritage through its varied art forms resulting in the ethos of appreciation of **Visual and Performing arts and aesthetics in the school by using the art of thinking independently, together. Various Sports activities like Shooting, Archery, Athletics, Cricket, Football, Squash, Tennis, Throwball, Golf etc and activities related to Visual and Performing Arts like Theatre, Sculpture, Pottery, Film Making, Design, Photography etc** have been introduced in the new session which would encourage and help our students explore and experience their innate talent. Keeping up with this thought, there would be **ten bagless days** which would not only lessen the burden of carrying heavy bags but also acquire expertise with innovative and futuristic techniques of education.

In the new session, the school will provide **NCERT books** for all classes and for all subjects along with **spirals / workbooks** for each subject which will have a comprehensive content catering to the demands of the New Education Policy thereby expanding the student's horizons. Students will get an opportunity to use the **Educational Apps like STEPapp and Edunext** which will help them hone their problem-solving skills and learn to develop better content.

Keeping up with the Global Education Development Agenda, the school is moving beyond the classroom learning. **Several Career Fairs and Leadership training programmes are chalked out to benefit our students in the long run. Career Counselling Workshops and Individualized Career Counselling sessions** will also be conducted for the Senior Secondary students. The school would be organising a **Career Fair with the exhibits of more than 100 top universities visiting the campus from all across the world.**

Yet another initiative taken by K. R. Mangalam World School, G.K-II is the new **Sports Academy**. Students can enrol themselves into the Sport of their choice and activities related to Visual and Performing Arts. They can avail the coaching for the particular sport from the best trainers, after school hours.

The strong partnership that we have shared in all these years with your constant and unstinted support has indubitably provided a terrific platform for your wards and we will continue to leave no stone unturned in the journey of perfection.

A clean slate, an optimistic look forward, 2021-22 will be a year of unlimited dreams, unlimited possibilities and immeasurable potential. We, at K.R. Mangalam World School, G.K-II wait eagerly to welcome our shining stars and are ready to take the world by storm.
