

“Education is not the learning of facts, but the training of the mind to think”

The transition from home to school marks the beginning of an important phase in life of a child. Keeping in mind, K.R. Mangalam World School Paschim Vihar conducted the demonstrative teaching learning session for the parents of Nursery and Kindergarten.

The session apprised the parents about the teaching methodology for letters , numbers ,Hindi vyanjans and general awareness topics using different teaching techniques and activities following the child centric approach. The teachers demonstrated many Hands on activities using props and teaching aids which develops their fine and gross motor skills.

The teachers encouraged the parents to follow the same pattern of learning, recognition, formation and writing at home.

The session was well interactive, activity based and proved to be beneficial for the parents as they found it to be great source with abundance of ideas and active methodology.
