

WORKSHOP ON “CAREER COUNSELLING”

DATE: 27th APRIL ,2016

Our School conducted a workshop on ‘Career Counselling’ for the students of Class XI. The resource person started the session with some real life experiences which was enlightening for the students. Thereafter he started an interactive session with the students asking their aims and aspirations in life. The students participated enthusiastically in it. They were guided for various career options (and their related educational qualifications) which they can opt for, like career in aviation engineering, business management, commercial designing, public relations, medicines, food technology etc. Dr. Gandhi mainly emphasized on “**FOCUS ON YOUR DIRECTION RATHER THAN DEGREES**”. He encouraged the students to streamline their interests towards career by giving various “Career Aptitude Tests” available online.

It was followed by an open session, where students asked their queries comfortably and were answered satisfactorily. Over all the session was awakening and informative.
